

K-LOVE is my primary radio station. It serves as a great encouragement to me on a daily basis. I would be extremely unhappy if it was no longer available. This station serves my community in several ways providing a very positive and uplifting message. The community would be at a loss if it was no longer broadcasted locally. I have never enjoyed a station as much as K-LOVE. There are very few if any stations that even provide such a postive message. In fact, most stations do just the opposite, promoting negative messages. The community would be at a loss without K-LOVE.
